Education

Indian Institute of Information Technology Lucknow

Aug 2023 – April 2027

Bachelors of Technology in Computer Science and AI

- **CGPA:** 9.31/10.0
- **Coursework:** Database Management, Object Oriented Programming, Operating System, Web Development, DSA.

Experience

AI Product Development Intern — Predulive Labs [🔗](#)

Jan 2025 – Mar 2025

- Developed **3 production-ready ML models** for yield prediction of **4 crops**, improving accuracy by 15%.
- Processed **10GB+ datasets** using Scikit-learn, XGBoost, and Pandas with optimized ETL workflows.
- Led weekly reviews with **3 engineers** to refine features and validate KPIs.

Projects

SmartEd: Personalized Learning Platform

[SmartEd](#) [🔗](#)

Tech Stack: LangGraph, FastAPI, React.

March 2025

- Built a learning platform with 3 multimodal AI agents, increasing study efficiency by 25%.
- Developed a recommendation engine tracking 4 metrics, improving learning outcomes by 18%.
- Deployed scalable backend using LangGraph + FastAPI, supporting real-time queries and 200+ concurrent users.

Vulnpilot: AI-Powered Security Automation Platform

[Vulnpilot](#) [🔗](#)

Tech Stack: Node.js, Django, MongoDB, PostgreSQL, Docker.

August 2025

- Integrated 6+ tools (Nmap, SQLMap, WPScan) for comprehensive vulnerability scanning.
- Built AI-driven code analysis with Groq SDK, cutting triage time by 40%.
- Developed no-code workflows and real-time dashboards, boosting security efficiency.

Synapse: Gesture-based HCI System

[Synapse](#) [🔗](#)

Tech Stack: OpenCV, MediaPipe, TensorFlow.

September 2024

- Implemented an HCI system detecting 42 gestures and 7 emotions in real time (94% accuracy).
- Applied data augmentation, expanding dataset 5x and improving model performance by 20%.
- Packaged the model into a Streamlit demo for easy testing and cross-platform usability.

Achievements

- **1st Place** — CDIS Medical-ML Hackathon, IIT Kanpur (**1,000+ participants**). Mar 2025
- **3rd Place** — NFRA AI-Finance Hackathon, IIT Kanpur (**500 teams**). Mar 2025
- **Top 11** — Walmart Sparkathon (**21,000+ participants**). July 2025
- **Shortlisted in top 3000** — Amazon Summer School 2025 (**70,000+ registrants**). Aug 2025
- Merged PR to **SymPy**, enhancing matrix operation test coverage. [PR Link](#) [🔗](#)
- **Global Rank 118** — CodeChef Round 116 (Div. C). [Contest Link](#) [🔗](#)
- Rated **Specialist** on Codeforces (Max: 1419) & **3-Star** on CodeChef (Max: 1749). [CF](#) [🔗](#) / [CC](#) [🔗](#)
- **Solved 1200+** DSA problems across platforms. [Profile Links](#) [🔗](#)
- Captured **150+ CTFs** on picoCTF. [picoCTF Profile](#) [🔗](#)
- **INSPIRE Scholarship** — Top 1% in Class 12 ISC Board (**150,000+ students**). Aug 2023

Skills

- **Programming Languages:** C++, Java, Python, C, JavaScript, SQL.
- **Backend & Systems:** Python (Flask, Django, FastAPI), RESTful API design, Microservices, Unit testing, Debugging.
- **Web Development:** ReactJS, Node.js, Express, Next.js, REST APIs, Tailwind CSS.
- **Databases & Storage:** MySQL, PostgreSQL, MongoDB, Redis, SQL schema design and query optimization.
- **Tools & DevOps:** Git, Docker, CI/CD (GitHub Actions / GitLab CI), Jupyter, Anaconda, CMake.
- **Machine Learning & Libraries:** NumPy, Pandas, scikit-learn, TensorFlow, Keras, PyTorch, OpenCV, NLTK, spaCy.

Roles and Responsibilities

- **Senior Member of Machine Learning Wing of AXIOS, The Technical society of IIITL:** Conducted **10+ ML sessions/month** for 200+ students; designed datasets for **5+ competitions**.
- **Core Member of Axios Information Security Club:** Directed **IncognitoV6 CTF** with 1,000+ participants from 25+ countries; delivered penetration testing workshops to 150+.
